

## Ultimate Song featuring Nuria & Sam 'The Kung-Fu Man' 03:57

If I wrote the ultimate song it would be multiple syllables principles on  
Quantum mechanics twelve bars strong nuclear physicists eight bars long  
If I wrote the ultimate song in the first line I would quote Khalil Gibran  
Religion the bible and the Qur'an discuss Lord of the Flies and Animal Farm  
If I wrote the ultimate song it would be more conspiracy theories galore  
Cultivating mind states like manure politicking fertiliser stinking up a cure  
If I wrote the ultimate song I would write a chorus so that no one could ignore us  
And if I wrote the ultimate song it would be played in Old Havana and New Hong Kong

### *Chorus*

*If I wrote the ultimate song you would hear it all day long all night long*  
*If I wrote the ultimate song it would go on and on, on and on*  
*If I wrote the ultimate song you will finally know where you belong yah*  
*If I wrote the ultimate song it would make you feel strong so strong*

If I wrote the ultimate song it would be like summer in winter or spring in the fall  
Reading books written to inspire you all like Paulo Coelho or 1984  
If I wrote the ultimate song I would unearth your emotions using it for  
Connecting with good if you depressed on the floor  
Think of being a child in a curio store  
Eating your favourite cereal like cheerios or  
Playing with marbles at your front or patio door  
Euphoric and happy you eager for more  
Exactly the feelings we need to explore  
Not pain when your Achilles tendon tore  
See if I wrote the ultimate song Hey  
You would hear me go on about the cosmos  
Or when humans are born
