

## Travel Light featuring Benjamin Kasongo (Meisterbeatz Refix) 03:54

We got cell phones, internet, laptops  
Hell no PC's, Apple Macs I own  
iPods, MP3 cellular ringtones  
SMS, MySpace tell me what you think Oh  
You didn't get it should cc'd you on Facebook  
Wrote it on Twitter left a message with you sister  
I called your landline and still couldn't reach yah  
Hey, Yo, now what does that teach yah  
We went from vinyl, cassette to CD  
Tape deck, video, radio, TV  
Playback to downloading all of these freebies  
Like hey, you know that one I want for free please  
Uh, I only pay for newbies  
Whatever happened to just chilling with the folks  
Or telling some jokes, hanging with the blokes  
Being in the park and playing soccer with the coach

### *Chorus*

*We leaving on a jet plane taking flight  
So leave all of your troubles and pack light  
Everything will be alright come on with us tonight  
We got to move outta sight*

We got to slow down on this merry go round  
Think we busy living but we in a ghost town, sho found  
Uh, new ways to run around  
We like rats in a cage or uh mice in a maize  
We nice little slaves blind bats in a cave  
Couldn't see the bigger picture even if it was right in our face  
It's like we dumbed down dimmed lights to erase  
What we should be in the very first place  
We distracted by actors, videos, friend space  
Factors like bills or a house in the hills  
Keeping up with the Jack and the Jill's  
Drinking on the devil and then chocking on the jinn  
Sinking to a level where you can't even begin  
To understand you just floating in the wind  
Don't know where you going  
And you don't know where you been  
Dust yourself off from the mess that we in
